

Combat Laser Games have over 20 years' experience in delivering the right message for client hospitality, team building, promotional events and employee motivation.

The key to an event's success lies in getting a clear understanding of your objectives, so the right solution and tone can be delivered on the day. You can choose from our dedicated range of corporate development games or brief us to create a bespoke event to suit your specific objectives. Accordingly fees are calculated on your individual requirements.

Using the expertise of our combat laser event team, clients engage in missions of varying complexity from simple capture the flag games through to bigger VIP operations. Before each game, teams will be briefed and have the opportunity to formulate a plan. The importance of working to deadlines is introduced as timings take on a more significant role in the time frame of the games, it is no longer the survival of the fittest but the survival of the cleverest, with each member of the team displaying their individual strengths for the greater glory of the team.

We understand that your business has unique requirements and challenges and sometimes its not always possible to host your event at our dedicated laser site at Sidcup. Not a problem we can come to you! It doesn't matter if you are hosting your event at a stately home, conference centre, castle, hotel or your corporate HQ our system is totally mobile. Using our innovative mobile bunker system, combined with our laser equipment and experienced event team you can be assured to deliver your message in an effective, memorable yet enjoyable format.

Call our corporate event team to discuss the requirements of your next event.

#### **Combat Laser Games - Mobile Corporate**

- Combat Laser Games is ideal for all members of your workforce, product launches, clients including children (minimum age of 10 years).
- No safety gear required – no need to wear a mask!
- Players will never run out of ammunition!
- Combat Laser Games does not require any safety equipment as the guns fire a harmless infra red beam.
- Combat Laser guns are fitted with easy to use scope sights and are extremely accurate.
- Combat Laser Games use the latest U.S. military grade equipment.
